

# RoLine Concrete Pump

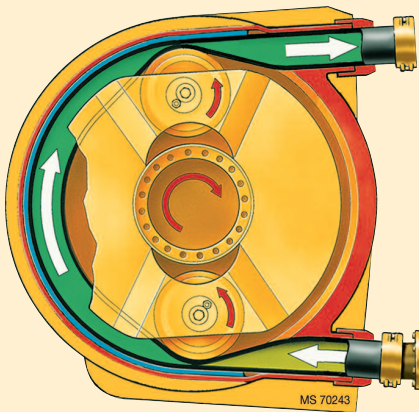

Concrete pump in a cost-effective package

**Putzmeister**

**The concrete pump designed for small builder and domestic applications incorporating a range of features tailored to meet the market demands in a practical cost-effective package.**

- Virtually eliminates residual concrete in the system
  - The customers get the concrete they pay for
  - Quick and easy to clean
- Eliminates surge in the delivery line
- Low hopper for mini-mixer deliveries
- Lightweight delivery line
  - Safe to use at only 25 bar pump pressure
  - Light for easier handling and quicker set-up
- Quiet pumping process
- Delivery rate infinitely variable, forwards and reverse
- Ease of maintenance built in
- Support and service from Putzmeister

### Putzmeister's rotary pump is at the heart of the new RoLine concrete pump:

- Quick and easy cleaning
- No residual concrete remains in the system
- Low wear: the rotor hose is the only wear part of the pump and can be replaced very quickly
- Delivers even the most difficult materials
- Quiet pumping process
- Delivery rate infinitely variable, forwards and reverse

3

The rotor hose is the only wear part of the pump, and can be replaced very quickly. To protect the hose, it is laid on a fully vulcanised rubber bed.

4

Almost no residual concrete – nearly 100 % of the concrete in the hopper can be delivered to the construction site. Expensive concrete residue disposal is avoided.

5

Delivers a wide range of material including more difficult materials such as: steel fibre concrete, free flowing screed, foam concrete, self compacting concrete, fluid concrete, lightweight concrete up to a particle distribution of 32 mm. Even pumps broken material, if this has a good share of fines in the concrete mix.

6

#### Technical data

Output	58 m <sup>3</sup> /h
Delivery pressure	25 bar
Hopper capacity	400 l
Pump outlet	100 mm
Overall length	6.4 m
Overall width	2.0 m

#### Market Technique Fields

Concrete Technology PCT · Mortar Technology PMT  
Pipe Technology PPT · Water Technology PWT  
Industrial Technology PIT · Belt Technology PBT  
Underground Technology PUC
